Shaykh al-Albaanee said, "I praise Allaah, the Blessed and Exalted, for His tawfeeq and I ask him for increase from His bounty and Kindness. With this narration of Aboo Hurairah (رضي الله عنه) this edition of Adab al-Mufrad ends containing those marfoo ahaadeeth and mawqoof narrations that have a weak isnaad and there is nothing found that would support and strengthen it in accordance to my methodology that I have explained in the introduction. Due to this the number of weak narrations and ahaadeeth is only 218. This number is much smaller than the actual number of ahaadeeth that have a weak isnaad [but are authentic due to supports.]

All praise is due to Allaah by Whose Favour the righteous actions are completed."
